# WELCOME TO THE HISTORIC MILFORD PENNSYLVANIA

We pride ourselves on being a delightful place to visit, and a wonderful community in which to live! The town of Milford dates back to 1733, when this was truly wilderness, and the settlers and Native Americans who lived here enjoyed the blessings of rich forests, beautiful lakes, and fresh waters of the Delaware River and the streams that feed into it. *We invite you to do the same.*

From a small pioneer community, the Borough of Milford was formally laid out in the late 1700's under the direction of one Judge John Biddis, who named the streets after his children and family, with the avenues inspired by the design of Philadelphia, the nation's first capitol.

Meander thru the residential areas to admire our outstanding Victorian architecture and manicured gardens, or roam the main streets with their restored historic buildings, wonderful shops and inviting restaurants, ethnic food shops and bakeries. Spend your nights at an historic inn or spotless B&B.

No visit to Milford is complete without visiting Grey Towers, the home of the French Huguenot family, the Pinchots, who came here in the early 1800's, and whose descendants are still active in Milford. Gifford Pinchot was founder of the U.S. Forest Service, which now maintains his mansion. Also on the must see list is the Columns Museum, a treasure-trove of local history and lore, and repository of the famous "Lincoln Flag".
